Welcome back to the start of 2016.

We hope that your children have all returned to school rested and happy. It seems as though from day one, we are right back into the swing of things!

Are you a new family to your school? Do you know who or what APFACTS is?

APFACTS is a well-respected advocacy group representing non-government school parents in the ACT and is managed by parents who have a passion for education issues. Our nominated school P&F representatives have children ranging from infants through to high school, across all our member schools.

APFACTS members meet once a term to discuss the latest issues in education and to hear about current matters within your schools.

Have you heard the phrases “parental engagement” or “digital citizenship”?

APFACTS has been pivotal in highlighting these topics with Education groups across ACT. Our Executive Committee and Executive Officer are active participants in multiple ACT based education committees to ensure that our members have access to the most up to date information.

Every week we will submit an article to your schools newsletter focusing on issues that are of most importance/interest to parents. If you would like to know more about APFACTS and what we do please have a look at our web site (as below) or give us a call.

We welcome your thoughts and involvement.

We hope you and your families have a great first week,

Kind Regards,

Linda Fleming

Executive Officer
