

School Funding News

08.05.2017

This is a topic that we will all be hearing more about this term. School funding is complex and it is important that we get correct details before making any comment about how the new model will affect parents of children attending independent schools.

“What does it all MEAN to us as parents?”

APFACTS' Executive committee have decided to take the following approach.

- 1) We will share credible school funding information with you as it comes to hand. The truth of the matter is, that for parents, there is still a lot of detail missing. APFACTS will share this information on their website, via regular posts on Facebook and via email.
- 2) We have a School Funding presentation already booked for the 25th May 2017

We invite all of you to join us for Andrew's presentation on

in the non- government sector.
